Welcome to compact capitol of Finland - **Helsinki**, where European threat assessment history continues. The 11th conference of the Association of European Threat Assessment Professionals will take place between **24th and 26th April 2018**.

Over the recent years, various professionals involved in the prevention of targeted, predatory violence have noticed the growing need to obtain the latest information on threat assessment and threat management within the European continent. Representatives from law enforcement, private security, law, victim support, forensic and clinical psychology and psychiatry as well as professionals from the academic world have voiced a need for networking in order to promote trans-European information exchange.

This year we are gathering in Helsinki with participants from five continents and 20+ countries. The 11th AETAP conference in Finland combines a wealth of experience and the latest information from Europe, North America, Australia, Africa and Asia. We have secured great speakers from a variety of backgrounds with a fascinating mix of professional experience.

Come to network, get the latest information on threat assessment and management across the globe and meet world leading subject matter experts. This conference is a must-attend event for anyone who works within the security management, prevention of targeted violence, assessment of violence risk, and threat management as well as anyone interested in networking across Europe.

CITY OF HELSINKI

Lonely Planet travel guide defines Helsinki as a location spectacularly entwined with the Baltic's bays, inlets and islands. Helsinki's boulevards and backstreets are awash with magnificent architecture, intriguing drinking and dining venues and groundbreaking design.

Finland is famed for its streamlined, functional, stylish design. In the 20th century, pioneers such as Alvar and Aino Aalto cemented its reputation, and the capital remains the country's creative hub. Helsinki's design scene is one of the most electrifying in the world today, and a major influence across the globe. Architecture in Helsinki is also flourishing, with highlights including the Kiasma museum of contemporary art and concert hall Musiikkitalo, Alvar Aalto's Akateeminen Kirjakauppa and Finlandia Talo concert hall, Timo and Tuomo Suomalainen's astonishing rock-carved church, the Temppeliaukio and Helsinki's beautiful train station. Functionalism, wooden architecture and Byzantine-Russian, neo-Renaissance and neoclassical styles are all woven into the city's fabric.

While it's a culture-packed urban centre, Helsinki is surrounded by sublime natural environment that's easily reached from every part of the city. Opportunities to get active abound here, from boating to its archipelago's islands, strolling along its beaches and through its extensive parks and gardens, and hiking in its surrounding forests. When snow blankets the city in winter and the seas freeze, snowshoeing, cross-country and downhill skiing, ice skating and ice fishing on the many bays are all invigorating ways to keep warm while staying in touch with nature.
