- Hurdles & Gaps

Effective Crisis Response

Crisis Prepared vs. Crisis Prone

- Studied showed that between 1998 and 2001 crisis prepared companies coped with 21 emergencies and crisis prone with 33 crises
- Additionally, crises proactive companies have been around an average of 24% longer (averaging 83 years)
- Adding to this, proactive companies experienced double the return on assets than crisis prone groups.

Global Legal Events & Legislation

Canada

- Bill 168 – Canada
 - Part III.0.1 – requires WV & Harassment policy & annual review
 - 32.0.2 – also requires program in support of policy
- Phanlowvong v Northfield Metal Products 2014 ONSC6586 –
 - Progressive Discipline policy

U.S.

- OSHA
- National Labor Relations Board (NLRB) – WV policy violated
- Illinois WV Prevention Act (2014) allows employers to obtain a restraining order against a person who carries out or threatens violence

Global Legal Events & Legislation

Netherlands

- Article 1.3e of the Working Conditions Act
 - “Employer must set up a policy and plan on how to approach these risks”

Belgium

- Law of Well Being (2007) –
 - Violence can be psychological or physical
 - Not a requirement for repletion or duration
 - Third party violence must be dealt with by employer

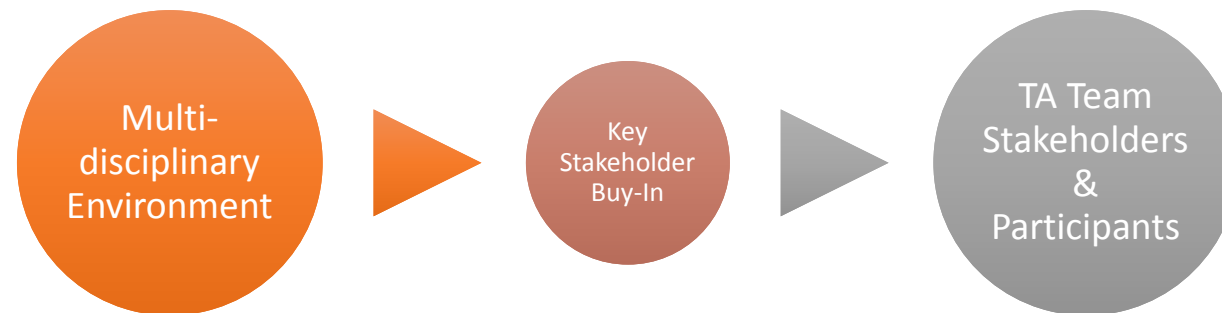

Global Legal Events & Legislation

Hurdles

- Creating a “Culture of Spys”
- Separate Teams are Needed
 - Students vs. Staff or Attorneys vs. Staff
- I’m the Chief so I belong on the Team
- I want to play too!
- That info is sensitive and we can’t share with YOU
- Crisis counseling can do the assessment
- Put a guard at the door, all will be well or call 911 if something goes wrong

Gaps

- BI's on vendors/contractors
- EAP program isn't positioned to do the level of counseling needed or volume of counseling
- Local LE resources have never been engaged resulting in weak relationships
- Local LE resources and understanding of TA/TM is lacking

Closing Thoughts

- Properly understanding the organizations capacity to support a program can greatly influence the depth of your support
- A lack of clarity of the organizations program vulnerabilities may negatively impact your assessment and management recommendations
- While many hurdles and gaps exist, they are not insurmountable.
